# OUR USP

## COLLATERAL MATERIAL

Puranico Has developed Kitchen Hygiene Wall charts designed to help cleaning operatives who manage the hygiene standards within the kitchen. This unique Kitchen Hygiene System has been developed that is neat, clean and easy to use. It provides guidance on how and where to perform the various cleaning tasks in the kitchen environment.

## ALL PRODUCTS ARE CERTIFIED AND LAB TESTED

Chemical analysis is essential of ensuring the chemical's safety, quality, productivity, control, consistency, among other factors that affect everyday life. It is important that an accurate chemical analysis is conducted for safety precautions more. All our products are lab certified and are also certified by various institutes in order to build trust amongst our clients and users.

## TRAINING

We offer professional development training, educational programs, and Standard Operating Procedures (SOPs) for many areas of cleaning, sanitation, regulatory/compliance and facility operation. Our certified experts can present our professional development programs or customize a program for your needs.

## ECO-FRIENDLY CHEMICALS THAT DO NOT HARM THE ENVIRONMENT

All our products are Eco friendly chemicals, bio-enzymes, bacterial and probiotic and enzyme products that do not harm the environment, whether in their production, use or disposal. Bio-enzyme products incredibly actually assist downstream effluent services such as sewer plants and septic systems when used!

## MATERIAL SAFETY DATA SHEET/ TECHNICAL DATA SHEET

MSDS is to provide precautionary information about a chemical product—especially useful for those who deal with chemicals on a day-to-day basis. All our chemicals have MSDS's are created by our team to warn users of potential threats and risks—to encourage proper handling and use. With employees can work with dangerous chemicals with less chance of negative exposure.

## TIME SAVING

Time is the cherry on top of the icing. It is time saving to use professional cleaning products and chemicals because they are more efficient and get the job done quickly and in the right way. A cleaning task that consumes 20 minutes of time using other products only takes 10 minutes when our products are used. The time required is effectively cut down by 50% or more!
