COMPANY INTRODUCTION

We introduce our self as a company in the field of water management, housekeeping & kitchen products & services and providing different solutions to hotels, hospitals, commercial malls and industries.

Transparency in business, Value for Money, Quality products, Latest Technology adoption, Affiliation from various Institutes, Strong service backup, Research and Care for environment & Customer Sensitiveness are key assets of Puranico.

We are particularly sensitive to quality and environmental issues, and we actively support the industry-wide initiative in this regard.

Our success is very much attributed to strong teamwork, continuous R&D ,the dedication and commitment of each and every member of the Puranico family to deliver unsurpassed quality and reliable products & services to the total satisfaction of all our customers.

Our greatest strength is the ability to understand the client needs. Our honesty, loyalty, openness and fairness make us a trustworthy long-term partner for our customers. We always emphasize on world class standard in Delivery, Services, Technical Assistance and Customer Awareness. We aim to build a long-term partnership with our customers by adding value to their business.

We not only supply innovative products and systems; we also educate our customers to ensure you get a clean result. Our staff are constantly striving for new fresh ideas from around the world to bring to our clientele, our role as a manufacturer & supplier is to keep you informed and at the forefront of your industry with these.

We not only have pride in the products we sell but also our business ethos with strong Environmental Values, Compassion, Online & Face to Face Training, Team Environment & Community amongst others entrenched in the Puranico way.

At Puranico we are fully committed to improving environmental performance across all of our business activities and encourage our customers and suppliers to join in this effort. Investing time and effort in understanding the Indian market, Puranico has innovated products that make your everyday life easy. Every user of Puranico can take pride in the fact that our products and manufacturing have minimal impact on the environment. We are committed to provide the Indian consumer the most unique and best products to simplify their life.

Puranico

OUR MISSION & VISION

We aspire to become a leading organization, delivering world class products and services to clients.

Our motive is to continuously expand our market and bring in new technologies to keep our clients satisfied.

Our goal is to have an organization where every employee gets to grow, helping them find fulfillment in an open culture.

Build the best product and use business to inspire and implement solutions to the environmental crisis.

Shape the future of Housekeeping and Kitchen care by creating unprecedented values and opportunities for our customers, employees and ecosystem partners.

We seek dependable partnerships with our suppliers to generate a strong mutual interest in each other's welfare.

To provide the best customer service possible, deliver 'WOW' through our services.

To work hard every day to make Puranico the best product and service provider in its field.

OUR VALUES

HIGH LEVEL OF CUSTOMER SERVICE

All our teams focus on delivering the highest level of service to our customers.

CARING ABOUT PEOPLE

We show respect for all of our partners (clients, suppliers & employees). We are committed to creating a healthy working environment.

RESPECT FOR THE ENVIRONMENT

We develop new environmentally friendly technologies. Our solutions are designed to protect the environment.

OUR CUSTOMER'S TRUST

Our honesty, loyalty, openness and fairness make us a trustworthy long-term partner for our customers.

Soap Dispenser

Innovative non-drip design that eliminates waste and counter top mess. Made of new and good quality ABS, which is durable, compact and in sleek looking. The pump is designed for easy pumping with one hand. The separated outlet liquid nozzle is perfect to avoid leaking and waste.

OUR USP

COLLATERAL MATERIAL

Puranico Has developed Kitchen Hygiene Wall charts designed to help cleaning operatives who manage the hygiene standards within the kitchen. This unique Kitchen Hygiene System has been developed that is neat, clean and easy to use. It provides guidance on how and where to perform the various cleaning tasks in the kitchen environment.

ALL PRODUCTS ARE CERTIFIED AND LAB TESTED

Chemical analysis is essential of ensuring the chemical's safety, quality, productivity, control, consistency, among other factors that affect everyday life. It is important that an accurate chemical analysis is conducted for safety precautions more. All our products are lab certified and are also certified by various institutes in order to build trust amongst our clients and users.

TRAINING

We offer professional development training, educational programs, and Standard Operating Procedures (SOPs) for many areas of cleaning, sanitation, regulatory/compliance and facility operation. Our certified experts can present our professional development programs or customize a program for your needs.

ECO-FRIENDLY CHEMICALS THAT DO NOT HARM THE ENVIRONMENT

All our products are Eco friendly chemicals, bio-enzymes, bacterial and probiotic and enzyme products that do not harm the environment, whether in their production, use or disposal. Bio-enzyme products incredibly actually assist downstream effluent services such as sewer plants and septic systems when used!

MATERIAL SAFETY DATA SHEET/ TECHNICAL DATA SHEET

MSDS is to provide precautionary information about a chemical product—especially useful for those who deal with chemicals on a day-to-day basis. All our chemicals have MSDS's are created by our team to warn users of potential threats and risks—to encourage proper handling and use. With employees can work with dangerous chemicals with less chance of negative exposure.

TIME SAVING

Time is the cherry on top of the icing. It is time saving to use professional cleaning products and chemicals because they are more efficient and get the job done quickly and in the right way. A cleaning task that consumes 20 minutes of time using other products only takes 10 minutes when our products are used. The time required is effectively cut down by 50% or more!
